Ingredients determined to be non-		
hazardous at the concentrations used various balance		
(including water)		

SECTION 4 – FIRST AID	MEASURES
Inhalation	Remove person to fresh air away from exposure. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. Obtain medical attention if symptoms occur.
Skin contact	If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If swelling, redness, blistering or irritation occurs seek medical assistance. Continue to flush skin and hair with plenty of water (and soap if material is insoluble).
Eye contact	Immediately irrigate with copious quantities of water for 15 minutes. Eyelids to be held open. Remove clothing if contaminated and wash skin. If irritation persists seek medical assistance.
Ingestion	Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious person. Rinse mouth thoroughly with water. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek medical advice (e.g. doctor).
Advice to Doctor	Treat symptomatically.
First Aid Facilities	Eye wash station. Normal washroom facilities.

SECTION 5 – FIRE FIGHTING MEASURES		
Fire and Explosion	Non-flammable liquid. However, on evaporation of the aqueous component, the residual material	
Hazards	may burn.	
Extinguishing Media	Use an extinguishing media suitable for surrounding fires.	
Fire Fighting	Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition.	
Flash Point	Does not flash.	
Hazchem	None allocated.	

SECTION 6 – ACCIDENTAL RELEASE MEASURES		
Emergency Procedures	Wear PPE in accordance with Section 8 of this SDS. Minor spills Avoid inhalation of vapours.	
	Wipe up with absorbent (clean rag or paper towels). Collect and seal in properly labelled containers or drums for disposal.	
	In the event of a major spill, prevent spillage from entering drains or water courses. Wear appropriate personal protective equipment and clothing to prevent exposure. Increase ventilation. As a water-based product, if spilt on electrical equipment the product will cause short-circuits. If possible, contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.	

SECTION 7 – HANDLING AND STORAGE		
Handling	Avoid eye contact with concentrate. Wear protective clothing when risk of exposure occurs. Avoid	
	contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep	
	containers closed at all times. Avoid physical damage to containers. Always wash hands with water	
	after handling. Launder contaminated clothing before re-use.
