YELLOW ACTIVE FOAM

Product Name: Date of Issue: JULY 2023

Page 1 of Total 5

SECTION 1 – STATEMENT OF CHEMICAL PRODUCT AND COMPANY IDENTIFICATION			
SUPPLIER:	Auto Klene Solutions Aust. Pty Ltd		
ADDRESS:	885 Mountain Highway, Bayswater, 3153 VIC		
Trade Name:	YELLOW ACTIVE FOAM		
TELEPHONE:	03 8761 1900	FAX:	03 8761 1955
AH EMERGENCY TELEPHONE:	1300 774 575 in Australia (M-F 7am-7pm)	Synonym:	Active Foam
Substance:	Water-based detergent	Product Use:	Concentrated vehicle washing detergent
Creation Date:	July 2023	Revision Date:	July 2028

Classification of the substance       mixture         Dangerous Goods       Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail". #### Note

AUTO

IMPORTANT

**CLENE** 

**TANT** This SDS and the hazard classifications contained therein, only apply to the product in its concentrated form, as supplied.

SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS		
Ingredients:	CAS Number:	Proportion (%w/w):
Sodium Aryl Alkyl Sulphonate	Prop Blend	< 10
Sodium Alkyl Ether Sulphate	Prop Blend	< 10
Ingredients determined to be non-		
hazardous at the concentrations used	various	balance
(including water)		

SECTION 4 – FIRST AID MEA	ASURES
Inhalation	Remove person to fresh air away from exposure. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. Obtain medical attention if symptoms occur.
Skin contact	If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If swelling, redness, blistering or irritation occurs seek medical assistance. Continue to flush skin and hair with plenty of water (and soap if material is insoluble).
Eye contact	Immediately irrigate with copious quantities of water for 15 minutes. Eyelids to be held open. Remove clothing if contaminated and wash skin. If irritation persists seek medical assistance.
Ingestion	Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious person. Rinse mouth thoroughly with water. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek medical advice (e.g., doctor).
Advice to Doctor	Treat symptomatically.
First Aid Facilities	Eye wash station. Normal washroom facilities.

SECTION 5 – FIRE FIGHTING MEASURES		
Fire and Explosion	Non-flammable liquid. However, on evaporation of the aqueous component, the residual material	
Hazards	may burn.	
Extinguishing Media	Use an extinguishing media suitable for surrounding fires.	
Fire Fighting	Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self- contained breathing apparatus if risk of exposure to products of combustion or decomposition.	
Flash Point	Not applicable	
Hazchem	None allocated	

SECTION 6 – ACCIDENTAL RELEASE MEASURES		
Emergency Procedures	Wear PPE in accordance with Section 8 of this SDS. With minor spills, wipe up with absorbent material (e.g., clean rag or paper towels). Collect and seal in properly labelled containers or drums for disposal. In the event of a major spill, prevent spillage from entering drains or water courses. Wear appropriate personal protective equipment and clothing to prevent exposure. Increase ventilation. As a water-based product, if spilt on electrical equipment the product will cause short-circuits. If possible, contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.	

YELLOW ACTIVE FOAM

Product Name: Date of Issue: JULY 2023

Page 3 of Total 5

SECTION 7 - HANDLING	G AND STORAGE	
Handling	Avoid skin or eye contact with concentrate. Wear protective clothing when risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with water after handling. Launder contaminated clothing before re-use.	
Storage	Store in a cool, dry, well-ventilated place and out of direct sunlight. Store away from foodstuf Store away from incompatible materials described in Section 10. Store away from sources of he and/or ignition. Keep container standing upright. Keep containers closed when not in use - che regularly for leaks.	
SECTION 8 – EXPOSURE	CONTROLS AND PERSONAL PROTECTION	
Exposure Limits	<ul> <li>National Occupational Exposure Limits, as published by Safe Work Australia:</li> <li>Time-weighted Average (TWA):</li> <li>None established for product or ingredients &gt;1%.</li> <li>Short Term Exposure Limit (STEL):</li> <li>None established for product or ingredients.</li> <li>None established for constituent ingredients &gt;1%.</li> </ul>	
Ventilation	No special requirements. Ensure adequate ventilation in use.	
Personal Protective Equipment	Use good occupational work practice. The use of protective clothing and equipment depends upon the degree and nature of exposure. The following protective equipment should be available;	
Eye Protection	Safety glasses should be used for handling concentrate in quantity, cleaning up spills, decanting, etc. Eye protection devices should conform to relevant regulations. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.	
Hand Protection	Wear gloves of an impervious material such as butyl rubber, natural latex, neoprene, PVC and nitrile – to handle in quantity, clean up spills, decanting, etc. Final choice of appropriate gloves will vary according to individual circumstances. i.e., methods of handling or according to risk assessments undertaken. Occupational protective gloves should conform to relevant regulations. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.	
Body Protection	Suitable protective workwear (e.g., apron, long sleeves/trousers, boots and cotton overalls buttoned at neck and wrist) are recommended. Chemical resistant apron is recommended where large quantities are handled.	
Respirator	If engineering controls are not effective in controlling airborne exposure, then an approved respirator with a replaceable mist filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.	

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES			
Physical State	Liquid	Colour	Yellow
Odour	Citrus	Specific Gravity	Not available
Boiling Point	Approximately 100 °C	Freezing Point	Approximately 0 °C
Vapour Pressure	Not available	Vapour Density	Not available
Flash Point	Non-flammable	Flammable Limits	Not applicable
Water Solubility	Miscible in all proportions	рН	8.0 - 8.5

YELLOW ACTIVE FOAM

Date of Issue: JULY 2023

Product Name:

Page 4 of Total 5

SECTION 10 – STABILITY AND REACTIVITY		
Reactivity	Stable at normal temperatures and pressure. May react violently with acids.	
Conditions to Avoid	Extremes of temperature and direct sunlight.	
Incompatibilities	Strong oxidizing agents.	
Hazardous	Thermal decomposition may result in the release of toxic and/or irritating fumes.	
Decomposition		

### SECTION 11 – TOXICOLOGICAL INFORMATION

#### POTENTIAL HEALTH EFFECTS

AUTO **K**LENE

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Inhalation	Inhalation of mists can produce mucous membrane and respiratory irritation.	
Skin contact	Contact with skin may cause irritation. Severity depends on the concentration and duration of	
	exposure.	
Eye contact	Contact with eyes may cause irritation. Severity depends on the concentration and duration of	
	exposure.	
Ingestion	Swallowing may result in nausea, irritation.	
Chronic exposure	Causes irritation to eyes and skin.	
<b>Toxicology Information</b>	Not toxic, based on ingredient calculated values.	
Carcinogen Status	No significant ingredient is classified as carcinogenic by SWA.	
<b>Respiratory Sensitisation</b>	Not expected to be a respiratory sensitizer.	
Skin Sensitisation	Not expected to be a skin sensitizer.	
Germ cell mutagenicity	Not considered to be a mutagenic hazard.	
Reproductive Toxicity	Not considered to be toxic to reproduction.	
STOT-single exposure	Not expected to cause toxicity to a specific target organ.	
STOT-repeated exposure	Not expected to cause toxicity to a specific target organ.	
Aspiration Hazard	Not expected to be an aspiration hazard.	

SECTION 12 – ECOLOGICAL INFORMATION		
Eco-toxicity	Not expected to be harmful to aquatic life when used as directed.	
Persistence and degradability	No information available	
Bio accumulative potential	Bioaccumulation is not expected.	
Mobility in soil	Due to its physicochemical characteristics, highly mobile in the environment and will partition to the aquatic compartment.	
Other adverse effects	Not available	
<b>Environmental Protection</b>	Do not discharge this material into waterways.	

SECTION 13 – DISPOSAL CONSIDERATIONS		
	Dispose of waste according to applicable local and national regulations. Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes including emptied containers are controlled wastes and should be disposed of in accordance with all applicable local and national regulations.	

SECTION 14 – TRANSPORT INFORMATION	
ADG	Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of
	Dangerous Goods by Road & Rail".
Marine Pollutant	No
