## SAFETY DATA SHEET

#### 1. Identification

| Product number                    | HT 18019   |
|-----------------------------------|--|
| Product identifier                | DR. FOAMY ENZYME CLEANER   |
| Revision date                     | 01-01-2021   |
| Company information               | HI-TECH INDUSTRIES<br>33106 W. 8 Mile Rd<br>Farmington, MI 48336 United States |
| Company phone                     | General Assistance 248-358-5533  |
| Emergency telephone US            | 1-800-535-5053   |
| Emergency telephone outside<br>US | 1-352-323-3500   |
| Version #                         | 05   |
| Supersedes date                   | 01-01-2021   |
| Recommended use                   | Cleaner  |
| <b>Recommended restrictions</b>   | None known.  |
|                                   |  |

## 2. Hazard(s) identification

| Physical hazards      | Gases under pressure | Liquefied gas |
|-----------------------|----------------------|---------------|
| Health hazards        | Not classified.      |               |
| Environmental hazards | Not classified.      |               |
| OSHA defined hazards  | Not classified.      |               |
| Label elements        |                      |               |

| Signal word                                  | Warning  |
|--|--|
| Hazard statement                             | Contains gas under pressure; may explode if heated.                            |
| Precautionary statement                      |  |
| Prevention                                   | Observe good industrial hygiene practices.                                     |
| Response                                     | Wash hands after handling.   |
| Storage                                      | Protect from sunlight. Store in a well-ventilated place.                       |
| Disposal                                     | Dispose of waste and residues in accordance with local authority requirements. |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.  |
| Supplemental information                     | None.  |
|  |  |

## 3. Composition/information on ingredients

#### **Mixtures**

| Chemical name                            | Common name and synonyms | CAS number | %        |
|--|--------------------------|------------|----------|
| Isobutane                                |                          | 75-28-5    | 2.5 - 10 |
| Propane                                  |                          | 74-98-6    | 0.1 - 1  |
| Other components below reportable levels |                          |            | 90 - 100 |

Other components below reportable levels

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

#### 4. First-aid measures

Inhalation If symptoms develop move victim to fresh air. Get medical attention if symptoms persist. Wash off with soap and water. Get medical attention if irritation develops and persists. Skin contact

| Eye contact  | Rinse with water. Get medical attention if irritation develops and persists.  |
|--|---|
| Ingestion  | Rinse mouth. Get medical attention if symptoms occur.   |
| Most important<br>symptoms/effects, acute and<br>delayed                     | Direct contact with eyes may cause temporary irritation.  |
| Indication of immediate<br>medical attention and special<br>treatment needed | Provide general supportive measures and treat symptomatically.  |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.  |
| 5. Fire-fighting measures  |   |
| Suitable extinguishing media   | Not available.  |
| Unsuitable extinguishing media   | None known.   |
| Specific hazards arising from the chemical                                   | Contents under pressure.  |
| Special protective equipment and precautions for firefighters                | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.   |
| Fire-fighting<br>equipment/instructions                                      | In case of fire: Stop leak if safe to do so. Do not move cargo or vehicle if cargo has been exposed to heat. Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.   |
| Specific methods   | Cool containers exposed to flames with water until well after the fire is out.  |
| 6. Accidental release meas   | sures   |
| Personal precautions,<br>protective equipment and<br>emergency procedures    | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Emergency personnel need self-contained breathing equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. |
| Methods and materials for<br>containment and cleaning up                     | Refer to attached safety data sheets and/or instructions for use. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.)  |

Environmental precautions A

waterways, sewer, basements or confined areas. For waste disposal, see section 13 of the SDS. Avoid discharge into drains, water courses or onto the ground.

#### 7. Handling and storage

Precautions for safe handlingPressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing<br/>or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke<br/>while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or<br/>expose containers to heat, flame, sparks, or other sources of ignition. Ground and bond containers<br/>when transferring material. Do not re-use empty containers. Use only in well-ventilated areas.<br/>Wear appropriate personal protective equipment. Observe good industrial hygiene practices.Conditions for safe storage,<br/>including any incompatibilitiesLevel 1 Aerosol.

Contents under pressure. Do not expose to heat or store at temperatures above 120°F/49°C as can may burst. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. Store in a well-ventilated place. Refrigeration recommended. Store away from incompatible materials (see Section 10 of the SDS).

away from spilled material. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Prevent entry into

#### 8. Exposure controls/personal protection

| cupational exposure limits      |               |            |  |  |
|---------------------------------|---------------|------------|--|--|
| US. ACGIH Threshold Limit Value | es            |            |  |  |
| Components                      | Туре          | Value      |  |  |
| Isobutane (CAS 75-28-5)         | STEL          | 1000 ppm   |  |  |
| US. NIOSH: Pocket Guide to Cher | mical Hazards |            |  |  |

| Flammability limit - upper<br>(%)          | Not available.                           |
| Explosive limit - lower (%)                | Not available.                           |
| Explosive limit - upper (%)                | Not available.                           |
| Vapor pressure                             | Not available.                           |
| Vapor density                              | Not available.                           |
| Relative density                           | Not available.                           |
| Solubility(ies)                            |  |
| Solubility (water)                         | Not available.                           |
| Partition coefficient<br>(n-octanol/water) | Not available.                           |
| Auto-ignition temperature                  | Not available.                           |
| Decomposition temperature                  | Not available.                           |
| Viscosity                                  | Not available.                           |
| Other information                          |  |
| Flammability class                         | Flammable IB estimated                   |

| Heat of combustion (NFPA | 2.47 kJ/g estimated |
|--------------------------|---------------------|
| 30B)                     |                     |
| Specific gravity         | 0.919 estimated     |

### 10. Stability and reactivity

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport. |  |
|---------------------------------------|---|--|
| Chemical stability                    | Material is stable under normal conditions.   |  |
| Possibility of hazardous<br>reactions | Hazardous polymerization does not occur.  |  |
| Conditions to avoid                   | Avoid temperatures exceeding the flash point. Contact with incompatible materials.            |  |
| Incompatible materials                | Strong oxidizing agents.  |  |
| Hazardous decomposition<br>products   | No hazardous decomposition products are known.  |  |

#### 11. Toxicological information

#### Information on likely routes of exposure

| Ingestion  | Expected to be a low ingestion hazard.                   |
|--|--|
| Inhalation   | No adverse effects due to inhalation are expected.       |
| Skin contact   | No adverse effects due to skin contact are expected.     |
| Eye contact  | Direct contact with eyes may cause temporary irritation. |
| Symptoms related to the physical, chemical and toxicological characteristics | Direct contact with eyes may cause temporary irritation. |

#### Information on toxicological effects

| Acute toxicity                                     |  |  |  |
|--|--|--|--|
| Components   | Species  | Test Results   |  |
| Isobutane (CAS 75-28-5)                            |  |  |  |
| Acute  |  |  |  |
| Inhalation   |  |  |  |
| LC50   | Mouse  | 1237 mg/l, 120 Minutes                                   |  |
|  |  | 52 %, 120 Minutes  |  |
|  | Rat  | 1355 mg/l  |  |
| * Estimates for product may t                      | be based on additional component data not shown.   |  |  |
| Skin corrosion/irritation                          | Prolonged skin contact may cause temporary irr   | itation.   |  |
| Serious eye damage/eye irritation                  | Direct contact with eyes may cause temporary ir  | Direct contact with eyes may cause temporary irritation. |  |
| Respiratory or skin sensitizatio                   | n  |  |  |
| <b>Respiratory sensitization</b>                   | Not available.   |  |  |
| Skin sensitization                                 | This product is not expected to cause skin sensitization.  |  |  |
| Germ cell mutagenicity                             | No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic. |  |  |
| Carcinogenicity                                    | This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.                                  |  |  |
| OSHA Specifically Regulate                         | ed Substances (29 CFR 1910.1001-1050)  |  |  |
| Not listed.  |  |  |  |
| Reproductive toxicity                              | This product is not expected to cause reproduct  | ve or developmental effects.                             |  |
| Specific target organ toxicity - single exposure   | Not classified.  |  |  |
| Specific target organ toxicity - repeated exposure | Not classified.  | Not classified.  |  |
| Aspiration hazard                                  | Not likely, due to the form of the product.  |  |  |

#### 12. Ecological information

| Ecotoxicity                                | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. |  |
|--|--|--|
| Persistence and degradability              | No data is available on the degradability of this product.   |  |
| Bioaccumulative potential                  | No data available.   |  |
| Partition coefficient n-octan<br>Isobutane | ol / water (log Kow)<br>2.76   |  |
| Mobility in soil                           | No data available.   |  |
| Other adverse effects                      | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.            |  |

#### 13. Disposal considerations

| Disposal instructions                    | Consult authorities before disposal. Contents under pressure. Do not puncture, incinerate or crush. Dispose of contents/container in accordance with local/regional/national/international regulations.  |
|--|--|
| Local disposal regulations               | Dispose in accordance with all applicable regulations.   |
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).                                 |
| Contaminated packaging                   | Empty containers should be taken to an approved waste handling site for recycling or disposal.<br>Since emptied containers may retain product residue, follow label warnings even after container is<br>emptied. Do not re-use empty containers. |

#### 14. Transport information

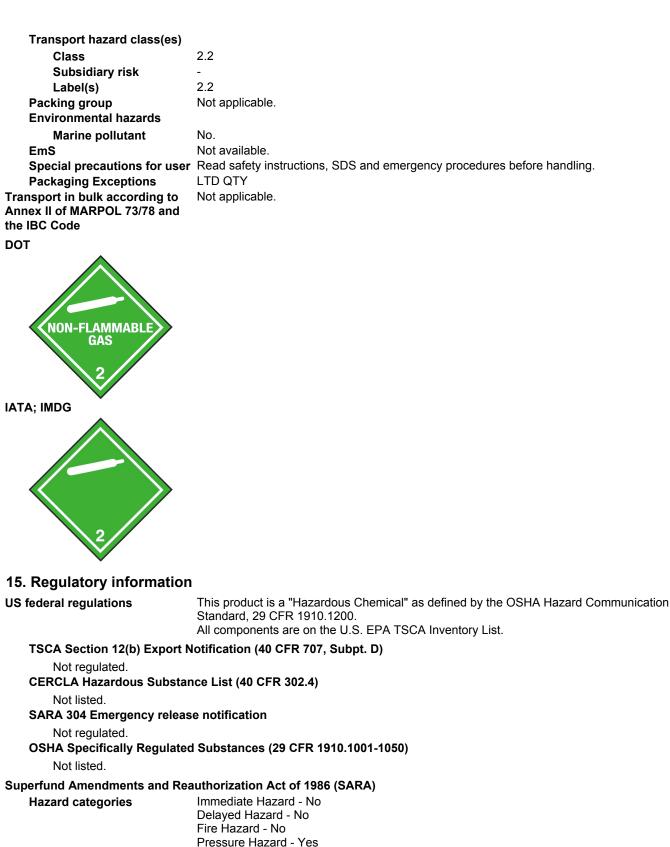

| n | n | т |
|---|---|---|
| υ | J |   |

| UN number                    | UN1950  |
|------------------------------|---|
| UN proper shipping name      | Aerosols, non-flammable, (each not exceeding 1 L capacity)              |
| Transport hazard class(es)   |   |
| Class                        | 2.2   |

| Special precautions for user | Read safety instructions, SDS and emergency procedures before handling. |
| Packaging exceptions         | 306   |
| Packaging non bulk           | None  |
| Packaging bulk               | None  |

This product meets the exception requirements of section 173.306 as a limited quantity and may be shipped as a limited quantity. Until 12/31/2020, the "Consumer Commodity - ORM-D" marking may still be used in place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/20 and may be used now in place of the "Consumer Commodity ORM-D" marking and both may be displayed concurrently.
